Subject: Microsoft Settlement.

U.S. Department of Justice,

The settlement of the Microsoft anti-trust case is very important. I have heard comments from my customers and family that the case is a "Joke" "not right" "not fair" and I believe it degrades the DOJ to a level that the American Public lose their trust in our "system". Anytime a Judge is so obviously biased in any type of case the people of this Country feel they could wind up in front of a similar Judge.

Settle this as fast as possible to prevent greater erosion of public trust in our Justice system.
